The general character of the SCIENTIFIC AMERICAN is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work,* and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains annually from 500 to 600 finely executed Engravings, and notices of American and European Improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combatting and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

**LINCOLN'S**
**WATER PROOF BLACKING,**
AND LEATHER PRESERVATIVE.

*Keep your Feet dry and you will seldom need a Physician.*

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when this water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

**Positively wear twice as long.**

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

**American Safety Paper**
**Manufacturing Company of N. Y.**

A. NICHOLAS, President. Office, 70 Wall st.

*A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.*

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

TRIESEMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c.; all physical impediments vanish like magic before its influence, thus rendering its use invaluable to those entering the marriage state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copavia and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.

TRIESEMAR No. 3—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in tin cases and divided in separate doses, as administered* by Valpeau, Lallemand, Roux, Ricord &c., &c. Price $3 each, or four cases in one for $9, which saves $3; and in 27 cases, whereby there is a saving of $9.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three-dollar cases sent as usual, but not free of carriage.

"First Pure, then Peaceable." Our pro-slavery politicians entirely reverse the Scripture order, in relation to Kansas. The President especially, by himself and through his organs, dwells greatly on the matter of *peace* in that Territory, and is willing to purchase it at the expense of all *purity* of elections, and all principles of right and justice. To do this he is ready to belie all his former prophesies and instructions, and sell himself, body and soul, to his Southern task masters. It is the cry of 'Peace, peace when there is no peace'—and can be done at such a sacrifice, as is required of all political and moral obligations.

It would be amusing, were it not so deeply humiliating, to witness the alacrity with which the Southern leaders of the black democracy and their supple President al tool, ignore all their former prophesies, and 'wheel about and jump Jim Crow' to accomplish their purpose in the subjugation of Kansas. No longer ago than when California applied for admission to the Union, the following Protest was entered upon the records of the U S Senate as grounds of opposition to its admission, by the prominent 'Democratic' members whose names are appended thereto

"*First*—That it gave the sanction of law and thus imparted validity, to an unauthorized action by a portion of the inhabitants of California.

"*Second*—Without any legal census or other evidence of their possessing the number of citizens necessary to authorize the representation they may claim.

"*Third*—Without any of those safeguards about the ballot box which can only be provided by law, and which are necessary to ascertain the true sense of a people.

"*Fourth*—As not having sufficient evidence of its (the Constitution) having the assent of a majority of the people for whom it was designed."

The protest was signed by the following Senators—

J M MASON,
R M T HUNTER, } Virginia
A P BUTLER
R W BARNWELL } S Carolina
H L TURNEY—Tennessee
PIERRE SOULE—Louisiana
JEFFERSON DAVIS—Mississippi
D R ATCHISON—Missouri
JACKSON MORTON
D L YULEE } Florida.

The Philadelphia Press very justly says:

'Kansas is now about to present herself and claim to be admitted into the Union as a State, under a Constitution made by a Convention not authorized by Congress, and elected by only a small portion of the people of Kansas—without a legal census having been taken—without any legal safeguards thrown around the ballot box—and not only without evidence of its having the assent of a majority of the people for whom it is designed, but *with evidence that the majority of the people are decidedly opposed to it*.'

Verily with these Southern Senators, it is now '*your* bull that has gored *my* ox.'

COMMODORE PAULDING TO GEN WALKER.—The following is Commodore Paulding's letter to the fillibuster Walker summoning him to surrender. The bluff Commodore gives expression to his thoughts with true Anglo Saxon energy and plainness. It is refreshing to read such an epistle

U. S. FLAG SHIP WABASH,
Off San Juan del Norte Dec 7 1857

Sir Your letter of Nov 30 was received at Aspinwall and sent with my despatches to the government. That of Dec 2 came to hand yesterday.

These letters surprised me with their tone of audacity and falsification of facts

Your rude discourtesy in speaking of Capt. Chatard of the Saratoga, I pass without comment. The mistake he made, was in not driving you from Punta Arenas when you landed there in defiance of his guns. In occupying the Punta Arenas and assuming it to be the head quarters of the army of Nicaragua, and you its Commander in Chief, you and your associates being lawless adventurers, deceive no one by their absurdity.

Lieutenant Cilley of the Saratoga informs me that he was in uniform, and you say he was in plain clothes when you threatened to shoot him. When you use such threats it may be of some importance for you to know that if any person belonging to my command shall receive injury from your lawless violence, the penalty to you shall be a tribute to humanity.

Now, sir, you and your fellows are here in violation of the laws of the United States, and greatly to its dishonor, making war upon a people with whom we are at peace, and for the sake of humanity, public and private justice, as well as what is due to the honor and integrity of the government of the United States, I command you, and the people associated here with you to surrender your arms without delay, and embark in such vessels as I may provide for that purpose.

I am, sir, very respectfully,
Your obedient servant,
H PAULDING,
Flag Officer Commanding U S Home Squadron

To Gen. William Walker, Punta Arenas.

Would Buchanan or Cass ever dare to address a Southern fillibuster in such disrespectful terms?

TWO MOONS IN ONE MONTH. One of our exchanges says:

During the present month [December] we have two full moons—the month coming in and going out with one—a thing which it is said has not happened for many years.

Nevertheless, it happened in May 1855, in July 1853, and so on previously. So long as the moon sweeps else each revolution in about 28 days, she must frequently present the same phase twice within the same calendar month.

### The Administration and the Fillibusters.

The Boston Courier recently said:

In this affair of Walker it [the administration] seems to have acted both with promptitude and discretion. The worthy public had no suspicion that the business would be brought thus summarily to a close. We are glad that all gossip was saved about it beforehand, and that by the arrest of Walker alone we first learn distinctly of the measures taken for his apprehension.

The gravity of this laudation is as laughable as the best emanations of Punch. The Courier speaks of the 'promptitude and discretion of the administration, and of the "measures taken for his [Walker's] apprehension," as if it was entirely ignorant that both "promptitude" and 'measures' are to be exclusively credited to Com. Paulding. The administration is 'prompt' only to *repudiate* Paulding's action, and to deny his authority to make the arrest. Its "measures" are first and foremost to threaten him with a court-martial for taking the responsibility of supposing that the administration wanted Walker to be captured,—and we suppose it may next restore Walker to his principality—sending him out in a National vessel, with all the honors, and paying up his 'damages,'—and perhaps furnish him with another ragged regiment of fire eaters. It is impossible to say what this administration will not do, with the proper pressure upon it from the South.

☞Since the above was written the despatches inform us that the whole South is in a blaze of indignation, and that formidable expeditions are organizing with the most audacious defiance of the neutrality laws. The Texas fillibusters have actually sailed, to the number of 800, and about 2000 more are going from New Orleans at once. We shall see whether the administration will now venture to make even a movement to enforce the laws or to stop this new crusade of the South against the territories of a friendly power, for the purpose of extending the area of slavery. This fillibustering movement has now acquired a serious, and even an alarming aspect, for it may involve us in war with Great Britain, unless our administration takes the most prompt and vigorous measures not only to prevent expeditions from leaving our shores, but to arrest and punish the pirates who may have landed in Nicaragua. But the South defies the administration, and southern influence rules it. No adequate measures to save the honor of the country can therefore be expected.

Meantime, if Walker is tried at all it must be at New Orleans where his offence was committed. He will of course be acquitted there, and immediately embark again for Nicaragua.

What with the perfidy of its Kansas policy and its new difficulties at the South, the Buchanan administration as well as the National Democratic party is in a fair way to total ruin.

In referring to the allegation that the new Revised Statutes declare void all marriages where the parties go out of the State to evade the publishment law, the *Augusta Age* says 'the Legislature overshot the Constitutional mark —and declares that any marriage which is good where celebrated is good in Maine.'— This may be true, although we doubt if Mormon marriages would exactly pass there. But as to "overshooting the Constitutional mark," the Age should know that the arrangement of sections in the matrimonial law was precisely similar in effect in *Judge Shepley's* revision as in the law as now printed. The publishment section was added to be sure—but if the 9th bears upon that, then the same 9th section in Judge Shepley's revision applied to the section simply requiring a Clerk's certificate of intentions of marriage. We think the 9th section has no effect upon either. It certainly was not intended to have.

Secretary Stanton on receiving intelligence of his removal said he went to the Territory a pro slavery man, that all his affiliations and sympathies were with the South, but he did not think he was obliged to make a tyrant of himself, or a border ruffian, to remain in the democratic party. Every Governor has gone to the Territory a Democrat, and all have been removed for their lack of fidelity to the South.

THE ROCHESTER MURDER—A NEW PHASE OF THE CASE.—In casting about for the motives which induced the killing of Littles the following theory is suggested. Stout, while living near Owego was sent to the Pennsylvania Penitentiary. It is surmised that previous to this he had married the woman known as Mrs. Littles, now represented as his sister, that while her husband was in prison, this woman lived in the Stout family as a daughter, and as such only was known to Littles, who became his wife. After Stout was released from prison, he of course, returned to his family, found his wife again married, consented to keep up the delusion with Little, but finally (Littles perhaps having got an inkling of how things were) plotted his murder.

This theory is plausible, and furnishes a motive for the murder and a reason for the offensive and indelicate intimacy of the 'brother and sister.'

There was a rumor in Rochester on Thursday that Ira Stout had made a confession implicating two other parties besides himself and Mrs Little. The only foundation for this story, however, proves to be, that some persons advised him to save himself and family by disclosing what other parties were concerned in the murder. Stout, who is quite as shrewd as his inquisitors, replied that there were two other persons engaged in it. They asked him to disclose their names, and he said he would let them know about it to-morrow.

That Stout and Mrs Little are the persons who threw the body down the cliff there can be but little doubt, for in the darkness, and by a false step, they both went down with their victim. That fall accounts for their bruises and broken limbs, and they cannot be satisfactorily accounted for in any other way. Stout's spectacles and Mrs. Little's rosettes must have been lost in this fall, and in the darkness could not be found.—*Albany Journal*

The Springfield Republican says

'Mr Sumner's course is not fully determined on, but he contemplates returning immediately to Europe, and going to India and Egypt for a year. This was the advice of his European physicians.'

It is rumored at Washington that Mr Buchanan himself supervised the original draft of the Lecompton Constitution.

There are now 9000 children in San Francisco city and county. Six years ago, we suppose there were not as many hundreds.

### LOCAL AND MAINE NEWS.

NEW YEAR'S DAY.—In accordance with the custom in this city, we shall issue no paper from our office to-morrow morning. To day the Carriers of the Daily Whig and Courier will take their New Year's holiday, and will present their Annual Address to the patrons of the paper. We trust that the hard times will not make the quarters hard to come at.

On our own behalf, we present the compliments of the season to our friends and patrons—and wish them all a speedy relief in their business from the pressure of the times. It has been felt by all, and we believe has been met with a spirit of calm and hopeful endurance, looking with confidence to a brighter day ahead—and suffering no present stringency in pecuniary affairs to contract the heart, or close the ears to the demands of benevolence. The opening year already gives promise of a revival in business, and we believe the commercial depression will be of much shorter duration than others which have preceded it.— The resources of the country and the demands upon its productive industry are far greater than ever before, and there has really been no sufficient cause for the revulsion. Let all take courage then, and declare that we will have a 'Happy New Year' in spite of the 'panic.'

THE EXCHANGE BANK SPECIE.—Our readers will remember that at the time the Exchange Bank of this city was first put under injunction, a forcible entry was made into its strong box, by the sheriff, under a process of attachment from Mr Demeritt of Boston, and the specie of the bank, amounting to about $6800 taken away.

This process on the part of Demeritt was resisted by the Receivers of the Exchange Bank and upon a trial in the United States Court it was held that Demeritt, upon the ground that he was a foreign creditor, might maintain his action against the Bank and recover judgment against the same.

A bill in equity was then filed to restrain Demeritt from levying upon the specie attached by him and to direct him to return the same. This bill in equity has been sustained, an injunction having been granted to restrain a levy upon the specie and to return the same to the Receivers of the Exchange Bank.

We understand that this injunction was granted upon a decision by Judge Curtis, to whom the case was referred after his removal from the bench.

The result will be that Mr Demeritt will have to file his bills against the Bank with the Receivers, and take his dividend with other creditors.

ALMOST A FIRE.—An extraordinarily high tide occurred here yesterday, (Thursday) forenoon—the water rising higher by some inches, it is said, than at any time since the great flood of 1846. The wharves in Kenduskeag Stream were flooded and the water gaining access to a quantity of lime in the storehouse of Messrs C H Dunning & Co, the building was by that means set on fire. An alarm being given the engines repaired to the spot, and after about twenty minutes of vigorous playing the fire was extinguished and the lime drowned out. The building was not materially damaged—but there is a loss of 150 or 200 casks of lime, and serious damage to about 150 tons of plaster which was stored in the same room with the lime. The high tide also entered the basement of some of the stores in Strickland's Block—doing some damage to the goods in Messrs Bugbee & Co's and W H Flagg's.

POLICE COURT, Dec 31st.—Officer Emerson arrested Ira L Berry and Frank Inman, of Veazie, charged with stealing a lot of mill irons from the mill of J W Veazie. Upon examination before the Court they were ordered to recognize in the sum of $300 each, for appearance at the Supreme Court in February. For want of bail they were committed.

STAGE LINE TO PORTLAND.—The present arrangement of trains on the Kennebec and Portland Railroad not affording sufficient accommodation a new stage line has been started between Brunswick and Portland. The stage leaves Brunswick for Portland at 6 A M, and returning leaves Portland for Brunswick at 4 P M stopping for passengers at Freeport and Yarmouth. Fare $1.25. This arrangement will continue while the cars make but one trip a day.

Thanks to Bryant's Express for late Boston papers in advance of the mail.

A JOLLIFICATION OF SIX HUNDRED YEARS.— The old farm house of Mr Samuel Ricker in Wells Me was the scene of joviality of the real Methuselah order, on the occasion of the annual occurrence of one of those truly old fashioned gatherings, where the old folks go in for enjoyment. Of those present the united ages of eight amounted to six hundred and four years. Each one of this hale old party brought a genuine old fashioned spinning wheel and the buzzing they made for a short time was considerable.

By the Revised Statutes which go into operation on the first day of January, the fine for the first offence of drunkenness is fixed at *five dollars* and for the second offence *ten dollars*.

Father Durand, Mr Patterson, of Nebraska and an unknown man on his way to Belfast, Me., to take his family back to Kansas City, were drowned by the capsizing of a boat on the Missouri river, Dec 8th.

AYER'S AMERICAN ALMANAC for 1858, is now ready for delivery gratis, at Alden's, who are happy to supply all that call for them. Every family should have and keep this book. It is worth having. Comprising much general information of great value, it gives the best instruction for the cure of prevalent complaints that we can get any where. Its anecdotes alone are worth a bushel of wheat and its medical advice is sometimes worth to the sick the wheat's weight in gold. Many of the medical almanacs are trash, but this is solid metal. Its calculations are made purposely for this latitude, and are therefore correct. Call and get an Ayer's almanac and when got, keep it.

A good story is told of a Michigan man who recently went down into Indiana to buy a drove of horses. He was longer absent than he intended, and failed to meet a business engagement. On being rather reproached for not being home, he made due apology. "I tell you how it is, Squire, at every little darned town they wanted me to stop and be President of a Bank."

NEW YEARS DAY IN THE LAST CENTURY.— We copy the following curious chronicle of the change made in the commencement of the year, within a little more than a century, from an article communicated to the National Intelligencer

The present time may be a suitable occasion on to inform such of your readers who may be unacquainted with the fact, that the first of January was not always the first day of the year among our forefathers. It is but a little more than a century since New Year's Day was celebrated on the 25th of March throughout the British dominions. The alteration was made in the 24th year of the reign of George the Second, which will appear by the following extracts of the acts of Parliament entitled An act regulating the commencement of the year, and for correcting the calendar now in use.

*Preamble.*—Whereas, the legal supputation of the year of our Lord—according to which the year beginneth on the 25th day of March—hath been found by experience to be attended with divers inconveniences, &c.

*Enactments.*—That, throughout His Majesty's dominions in Europe, Asia, Africa and America, the said supputation according to which the year of our Lord beginneth on the twenty fifth day of March, shall not be made use of from and after the last day of December, 1751, and that the first day of January next following the said last day of December shall be reckoned, taken, deemed, and accounted to be the first day of the year of our Lord, 1752, and so on from time to time. The first day of January in every year which shall happen in time to come shall be deemed and reckoned the first day of the year. &c.

The act also further corrects the calendar thus:

And that the natural day next immediately following the 2d day of September shall be called and accounted the 14th day of September, omitting for that time only the eleven intermediate nominal days of the common calendar.

In connexion with this it may be interesting to state that in the Island of Rhode Island to this day all farm and other leases date from the day of the ancient new year, namely, the 25th of March, but tradition among the old farmers has not handed down the reason.

SENEX

A SHARPER OUTWITTED BY A COUPLE OF COUNTRYMEN.—The other morning two farmers just arrived from one of the rural districts with a large supply of cheese for our city market, were strolling about the town to see the sights. In the course of their walk they were attracted into a famous mock auction store not far from the City Hall, where watches of various degrees of excellence were going off at a tremendous sacrifice.

When the auctioneer saw the rustic enter, he offered for sale a handsome gold watch with a heavy chain attached. One of them bid for it, and after some competition it was knocked down to him for the sum of $15. "Hand it up," says the auctioneer, "and I will fit it with a gold key gratis." "No thank you," says one of the green rustics. "I have the key of my value, which will answer the purpose," and he handed over the $15, but firmly held on to the watch.

Two gentlemen then appeared on the scene from the back of the store and confidentially told the rural gentleman that he was cheated and that he had better give it back and insist upon having his money, in which proceeding they would help him. He declined, told them it was none of their business, that the watch was knocked down to him, not to them, and that he was quite content with his bargain.

Then they commenced hustling him and tried to force him into a room at the back of the store, but with a vigorous push of his brawny shoulders he forced the 'mocks' aside, and with stentorian tones he cried out—'This way was clear when we came in, and if it is not clear in about a minute, we'll soon make it so!'

He looked like an ugly customer, so the auctioneers, thinking discretion the better part of valor, allowed the verdant countryman to leave without further interruption.

We examined the watch, which is a very superior double cased patent lever, and with the chain which accompanies it, worth $100. So it appears that one may sometimes obtain a good bargain even at a mock auction.—*N Y Tribune*

TAKING A CENSUS.—'Never gave you a history of my census taking I believe. Well, I took Jim Wilkers place while he was laid up at Chicago and I had some tough customers I tell you. I came along one day to a cabin some four or five miles from any neighbors. In answer to my knock an old woman about forty came to the door.

'Aow d'yo do? Walk in, folks, all gone, take a cheer—were you wanting to see my old man?'

'No madame, said I after accepting her invitation, I am taking the census.'

'The who?' said she.

'The census of the people the—'

'Oh law, well, you wont find much census in the people about here, the fever 'n agers shook it all out o' 'em.'

'I proceeded to explain.'

'Dear sus, I thought you might be a mag'sm man or a freniologer.'

'I proceeded to get her husband's name and age, also the children, but when I asked her age she came down on me flat, I smoothed it over however and let it go rising, I said is there any one else in your family.

'There's aunt Sally, but you don't want her name do you?'

Certainly, ma'am, I replied and proceeded to take it at once.

'Then there's old Jerry, but he's'enamost gin out this fall, I don't think the poor feller'l last to another spring.'

'Jerry, what is his other name?'

'Oh, he hasn't got no other name, we never call him nothing else.'

'How old is he?'

'Why let me see, fifteen—twenty—twenty six, he must be hard on to thirty.'

'An old man at thirty?'

'Old man, whose talking about old man, I'm telling you bout our old horse.'

Perhaps I didn't pick up my hat, perhaps I didn't take a very hasty leave, well—perhaps not.

Who that is troubled with any of those disagreeable complaints, such as Jaundice, Dyspepsia or Liver Diseases of any kind, but would like to know of a remedy for these unseemly visitations? We feel that we are doing our invalid readers an invaluable service if we can induce them to get a bottle of Dr Sanford's Invigorator, and take it, for we know from personal experience that it is one of the greatest remedies for general debility, and consequent inactive bodily powers ever before used. Its action is so perfect and complete as to give relief the first time taken, and if it does to others as it has to us half a bottle will be all that is needed. We know of nothing we can recommend with such confidence, as a family medicine, as the Invigorator.

We do not often come across a more fragrant sporting item than this, from the Hartford Times:

"Henry Hendrick, the well known trapper, of Plainville, took 14 skunks out of one hole, last Saturday. It was a feat that will not soon be equalled, probably."

[We should judge not.]

*TO THE DAILY WHIG AND COURIER*

**From Washington.**

WASHINGTON, Dec. 31.

It has been ascertained that before General Walker left Central America, he sent orders to Col. Anderson, to remain in possession of Fort Castillo as long as possible; if obliged to abandon it, then to retain the boats; but if compelled to destroy any of them before their falling into the hands of the enemy, to destroy the river boats first, and hold on to the steamer La Virgin. This order was repeated from Aspinwall. Arrangements were also made to send up a number of men in bungoes, under competent leaders, with the view to convey the order to Col. Anderson and advise any U. S. vessel approaching the coast, of the state of affairs in Punta Arenas and San Juan Del Norte. It is asserted, that Gen. Walker has confidence that Col. Anderson will obey the orders.

**Indian Delegates at Washington.**

WASHINGTON, Dec. 31.

Delegates from the Pawnees, Poncas, and Pottowatomies, numbering about thirty, had a formal interview with the President to-day at the White House. The auditory was large, including ladies, and Secretaries Cobb, Floyd and Thompson. The most interesting feature was the apparent reconciliation between the Chiefs of the Pawnees and Poncas, which tribes have long been hostile to each other.—The President, or grandfather as they call him, having persuasively dwelt upon the blessings of peace, joined their hands in token of friendship. The Pottowatomies wear citizens dress, while their less civilized colleagues were in their gaudiest attire, and more than usually profuse of paint and feathers.

**Arrivals at New York the Past Year.**

NEW YORK, Dec. 31.

The arrivals from foreign ports during the year 1857 were 3908, being an increase over any preceding year—except '53 and '54, when they were respectively 4105 and 4173. Of the entire number, 2802 were American, 715 British, and 121 Bremen vessels. The total includes 3 frigates, 244 steamers, 854 ships, 827 barks, 1224 brigs, 3 galliots, and 743 schooners. The number of passengers brought by these vessels is 214,765, including 11,265 from California. The immigration exceeds by about 50,000 either that of '55 or '56, but is not so large as any previous year since 1848.

**Gen. Walker's Arrest Denounced.**

NEW ORLEANS, Dec. 31.

The Nicaragua meeting, held this evening, was very large and enthusiastic. A speech by John Tabor created intense excitement.—Strong resolutions, denunciatory of the arrest of Gen. Walker, were passed.

**Kansas Affairs.**

ST. LOUIS, Dec. 31.

The Republican learns from a gentleman who left Kansas on Saturday last, that the Lawrence Convention adjourned without making any nominations for State officers. The matter is not regarded as disposed of, however, and the presentation of a ticket before the election is deemed probable.

**Sudden Death.**

DETROIT, Dec. 31.

Guy Foote, Esq., President of the Farmers and Mechanics Bank, of this city, was found dead in bed this morning.

The weather is moderate, there is but little snow, and the river is free from ice.

SALE OF CUMBERLAND AND OXFORD CANAL. We learn that negotiations are going on for the purchase of the Cumberland and Oxford Canal by private parties. It is said the price named is $40,000. This Canal extends from Portland to Lake Sebago, a distance of twenty miles, passing through Westbrook, Gorham, Windham and Standish. It was finished in 1830, at a cost of $211,000. It is understood to be the plan of the purchasers to discontinue the canal, and use its bed or tow-path for a rail-road track, thus avoiding the principal expense of grading.—*Portland Advertiser.*

ACCIDENT ON THE NASHUA & LOWELL RAILROAD.—*Nashua, N. H., Dec. 30.*—The two and a half o'clock passenger train from Boston ran into a hand car near North Billerica, and was thrown from the track. Mr. Julian Abbott, a clerk in the employ of the Railroad Company, was seriously injured. No other person hurt. Mr. Abbott was upon the engine, and when it ran off the track he was caught between the foot board and the tender.

A son of Judge Coney, of Augusta, lost a portion of three of his fingers a few days since, while operating a hay cutter. Two joints were cut from one finger, one joint from another, and another finger was cut off at the roots of the nail.

If life and health can be estimated by dollars and cents, it is worth its weight in gold.

**SMITH'S ELECTRIC OIL.**

This preparation, which has made such speedy cures in Philadelphia and many other places, begins to attract almost universal attention, and elicit comments of every kind. Some say it is IMAGINATION. Of course they assign any thing but the real and philosophical reasons.—Inflammatory Rheumatism, Gout, Palsy, Burns, Piles, Neuralgia, Salt Rheum, Erysipelas, Scaly Eruptions of the Skin, Womb Complaints, Asthma, Croup, Asthma, Indolent Swellings, Stiff Joints, Felons, Wounds, and Sprains, Broken Breast, Hemorrhage, Sore Throat, Frosted Limbs, Acute Nervous Pains, Tooth, Ear, and Head-ache, Deafness, &c., and Teething children, are now often cured in from 5 minutes to a few days simply by the IMAGINATION. Not any have used this oil without deriving some special benefit within an hour, and many are they who have been perfectly cured of the diseased very speedily.

*Large Bottles Ten Times the Cheapest.*

KEEP WELL CORKED.

Use according to directions. Apply with the warm hand only—eat plain food—drink no coffee.

**P. K.**

MY DEAR SIR—I desire to state a few instances of good resulting from the use of the Pain Killer. The first case that I shall mention is which I performed a cure was that of a servant boy, who had his right hand severely scalded by the falling of boiling oil on it, was in a few days perfectly cured by the application of a mixture of Cream and Pain Killer, as directed in such cases. Then my girl was cured of an obstinate Cough. Lastly, I shall refer to myself. I took the medicine—not from any confidence I had in it; on the contrary, I took it with a great deal of fear. However, I must own that it several times relieved me of cold in the chest—and cured me of a fever—of pain in the knee—and an ulcer in the mouth. In addition to the above, a case of cholera was brought to my notice; a coachman was attacked with this disease, and medicines kept for that complaint were given to the man without any effect, and, as the last resort, when he was cold and speechless, the Pain Killer was administered, which threw a warmth into the system and revived his sinking energy—in short the man was restored. **Wistar's Balsam of Wild Cherry.**

[From the editor of the Baltimore Patriot.]

BALTIMORE, Dec. 18.

Dr. Seth W. Fowle, Boston, Mass.—Dear Sir—I feel it to be due to you to say that a young lady, a member of my family, had been suffering for several years under a bronchial affection, and the doctors had made such progress, notwithstanding the best medical aid had been consulted, that great fears were entertained that the disease, with her, as with so many others, might speedily terminate in death. I was induced, through the suggestion of a friend, to try your DR. WISTAR'S BALSAM OF WILD CHERRY, and after she had taken three bottles, she felt entirely relieved of the attack.

Very respectfully yours,
J. F. MULTON.

**WORLD'S BLESSING!**

RHEUMATIC, NEURALGIC & SPINAL BALM.—*A Miracle of the Nineteenth Century.*—A son of Mr. L. Colbroth has been suffering the last two or three weeks with a severe case of Rheumatism—so much so that he was prostrated, and was unable to move himself in bed; and his friends considered him dangerously sick. Dr. J. B. N. Gould, of Boston, who has discovered a remedy for Rheumatism, Neuralgia, and Spinal Disease, arrived in town on Saturday, and has taken rooms at the Elm House. The Doctor was called on to treat his case, and in one hour from the time he applied his Rheumatic Balm he was able to leave his bed and walk his room, and is now free from rheumatism. This is, indeed, a wonderful discovery. [From the Eastern Argus, Nov. 24 '57.

**Wheat Meal & Shorts.**

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat,* for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unbolted wheat meal, and in shorts. A car load, 100 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, *fresh* ground within ten days. The meal is in bags, consequently not injured by packing 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels, as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber, Office No. 27 West Market Place.

THE LUXURY AND PROFIT OF

### HONEY MAKING.

☞ Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feeding of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted to their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for the hives and individual rights.

Premium awarded to T. C. BUTLER, Derby Line, Vt., on MILLER'S CONDITION POWDERS, for Horses & Colts, at the Vermont State Fair, held at Burlington, Vt., Sept. 9, 10, 11 and 12, 1856.

MILLER'S

### CONDITION POWDERS

For Horses & Colts.

PRICE—Twenty-five Cents.

THE changes of weather and season; with the changes of use and feed, have a very great effect upon the blood and sinuous fluids of Horses. At these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Hots, &c., all of which will be prevented by giving one or two of these Powders, Spring or Fall, and will at any time cure where any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, clear the water, and invigorate the whole body, enabling the animal to do more work with the same feed.

The action of these powders is directly upon the secretive glands, and therefore all diseases arising from or preducing a bad state of the blood are speedily cured by them. Also, colds and surfeit of any kind are cured by one or two of these powders, if given according to directions.

In all cases of Horse Distemper, they should be given at the first symptom to prevent fevers, and in the last stage, to carry off all humors of the blood, and to restore a healthy action to the glands of the throat.

We, the subscribers, hereby certify that we have used *Miller's Condition Powders*, for Horses and Colts, prepared by *T. C. Butler*, Druggist, Derby Line, Vt., and think them the best Powders for Horses and Colts that are out of condition, that we have ever used. We would recommend them to Farmers, Stage Companies, Stablemen, and others, dealing in or keeping Horses and Colts.

They will expel the Worms and Bots out of a Horse's stomach, and give him a good appetite for his feed, and good coat.

They are also good for the Heaves, and for a Cough, and they have been highly recommended for the cure of Worms and Bots in Colts.

They clean the water, loosen the skin, and invigorate the whole body, enabling the horse to do more work with the same feed. (Signed by)

*Timothy Winn*—Mr. Butler would say that Mr. Winn is the proprietor of the Canada House and Stage office on Stanstead Plain, and was for many years proprietor of the Derby Line House, Derby Line, Vt., where he raised the black colt called the Know Nothing, which was sold at $1800 at four years old.

*Ervastus Lee*—Mr. Lee is one of the most extensive farmers in Eastern Canada, and has raised some very valuable horses, which he has sold at high prices. This gentleman raised and sold the bay horse called Chimney, which was afterwards sold for $1600 and taken to France. He also raised and sold the horse called Benj. which has been taken to California, and is held at $15,000. Mr. Lee keeps from 40 to 60 horses and colts, and makes great use of Miller's Condition Powders.

*Wm. B. Hoyt*—keeps the Lyndon House and Livery Stable at Lyndon, Vt.

*H. Heath*—drives from Lyndon to St. Johnsbury.

*A. B. Fairs*—St. Johnsbury, Vt., dealer in horses.

*Geo. A. Merrill*, St. Johnsbury, Vt., Master of Transportation on Railroad.

*H. A. Quinsey*—Merchant, Lyndon Centre, Vt., and keeps the Powders for sale.

We, the undersigned, fully concur in the above recommendation of Miller's Condition Powders.

### Thrice-Weekly Age, for 1857

We propose to issue the 21st volume of the Thrice-Weekly Age during the session of the coming Legislature.

To enable us to do this without a very *great pecuniary loss* it is absolutely necessary that our friends throughout the State, for whose gratification and benefit the publication is made, should add to it by giving us a good list of subscribers.

The comparatively small number of Democratic members of the Legislature renders this service in our behalf doubly requisite this year, and we therefore confidently rely upon receiving it.

The character of the Thrice-Weekly Age is so well known, that we deem it needless to add any thing more.

The terms will be $2, in advance, for the session. Postmasters, or others, who will forward us the names of ten subscribers and the $10 shall receive a sixth gratuitous.

It is very important that the lists should be forwarded during the first of January.

## DR. SANFORD'S INVIGORATOR, or Liver Remedy.

THIS IS ONE OF THE GREATEST SCIENTIFIC Medical discoveries ever made, and is daily working curses almost too great to imagine, *even the first dose* more than one bottle is required to a common headache of a *Disordered Liver*.

The Liver is one of the principal regulators of the human body, and when it is not performing its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the liver for the proper performance of its functions. If the liver is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having the diseases of that organ made it this study for many years, to find a remedy that would counteract the many complaints that result from a diseased liver, and after many years of close study and application, I have at last found a remedy that will cure any person of Complaint in any of its forms, or money refunded, and conviction is certain.

A compound has been discovered that will act directly upon the liver, and by its use in a few days will cure any case of Liver Complaint in any of its forms, has but to try a bottle
